An enquiry led approach (How do we know?), inspires pupils' curiosity to learn and know more about the past.  
 At Hackforth & Hornby, KS2 pupils are encouraged to frame historically valid questions to develop an awareness of short and long term time scales; changes in national life and social history, identifying similarities and differences between ways of life in different periods. They are encouraged to put key features of events in a chronological framework: **subject content should focus on the passing of time.**  
 Links to English extends their knowledge through historical fiction, literature and poetry from identified periods and information texts.  
*Medium term planning identifies differentiation across year groups.*
